

# Beamer inner and outer themes for the University of Connecticut

part of a suite of themes

Jason Cory Brunson, PhD

Center for Quantitative Medicine  
University of Connecticut School of Medicine

October 11, 2023

# Table of contents

## ① Layout

## ② Environments

Text environments

Mathematical environments

## ③ Thanks

## Logo

The woodmark used in the footer can be determined by the `logo` option and specialized by the `campus` option:

```
\useoutertheme[campus=health,logo=stacked]{uconn}
```

- `campus` understands the values `health` (UConn Health), `jdjh` (John Dempsey Hospital), `averypoint`, `hartford`, `stamford`, `waterbury`, and `none`.
- `logo` understands `single` (no annotation), `side`, `stacked`, and `none` (no logo, and no footline).

Passing other values is equivalent to passing no value.

## Background

The faded oak leaf background image is activated by the watermark option, which defaults to none but can also be set to side or corner:

```
\useoutertheme[watermark=corner]{uconn}
```

Like the others used in this theme, the watermark image comes from the bulk logos download at UConn Brand Standard.

# Symbols

The classic (black) oak leaf is encoded as a symbol `\oakleaf`, and can be used in mathematical environments, e.g.

$$\text{\oakleaf}^{\mathbb{C}} = \text{\oakleaf} \otimes_{\mathbb{R}} \mathbb{C},$$

or in text (`\text{\oakleaf}`).

An inverted-color oak leaf is encoded as `\oakleafbox` (see the slide on claims and proofs).

# Blocks

## Block

This is a text block, formatted as in the default template.

## Alert block

This is an alert text block, also formatted by default.

More may be done in future to customize the block environments.  
Suggestions are welcome!

# Definitions and examples

## Definition

A **definition** block is by default formatted like a text block.

Text formatting like `\bfseries` (boldface) can be called within blocks.

## Example

An *example* is also a block, formatted a bit differently.

# Claim and proof environments

## Theorem

*Claim blocks, including lemma, theorem, and corollary, use slant-shaped font (`\slshape`) to emphasize their contents.*

## Proof.

This proof block shows that the customary open square tombstone has been changed to a UConn oak leaf (white inside a black square).

## Corollary

*The box oak leaf can also be used inline: *

# Acknowledgments

The Beamer class users guide and Thierry Masson's Beamer cheat sheet were indispensable aides to building this theme, as were several helpful discussions on the T<sub>E</sub>X–L<sup>A</sup>T<sub>E</sub>X Stack Exchange.

See the UConn Brand Standards website, in particular the PowerPoint templates, for more detail on the images and layouts used here.
